---

I know how you have been seeking  
I know how you have been praying  
But I will enable you to see  
That all the grace and the mercy only comes from Me  
You've been desirous to step into a place  
Where you can say  
Even greater than Moses  
'I have seen Him face to face'  
So sayeth the Lord, I have opened that holy place  
Where you will have an understanding of all My mercy and all My grace  
So don't rely on anything that you can do My son  
Or that you can do My daughter  
If you get caught up and see the throne  
And out of it comes a river of holy water  
Just jump into this river and realise today  
That everything will come true what I have to say  
I am, I am  
I never 'was'  
I am still it in this day  
And I am standing here to point to you the holy way  
You are walking in it and you will never go astray  
I have taken you by the hand  
And I will lead you across this land  
From strength to strength you will go  
Faster and faster and it will never be slow  
For you will know in My grace you will just grow and grow and grow  
For I am taking you to this higher place  
Where you will not by knowledge  
But by experience know the glory coming from My face  
Amen
